

International Masterclasses “Criminal Sciences 2026”

• **FORENSIC EVIDENCE AND ANALYSIS (CRIM113)**

This course provides the fundamentals of forensic evidence and crime scene investigation techniques, focusing on methods with demonstrated validity and reliability. Students will learn about evidence identification, documentation, collection, processing, and analysis. The course also covers the ethical responsibilities of scientists and examines the impact of bias and systematic issues on forensic evidence, including challenges to reliability and validity. Because of the nature and reality of work in the criminal justice field, real life examples that contain sensitive content may be used.

August-October 2026

• **CRIMINAL LEGAL PROCESS (CRIM117)**

Specific emphasis on the laws of arrest, search and seizure, interrogation and confession, procedure prior to and during trial, postconviction procedures, limitations on criminal prosecutions and juvenile proceedings.

October-December 2026

Classes are held online (via Zoom).

Cost: The cost for a course is \$915. There are no other fees, except for any textbooks that may be required by the instructor.

Payment information: Payment for courses can be made via credit card or online electronic bank transfer at the time of course registration. Credit card payments made online are processed through a third party and will incur a 2.9% processing fee. Payment has to be made in some form either at the time of course registration or within 24 hours of registering, or the course registration is voided.

Degree: Certificate
